NEW PIAA LP530 LED LAMP Euro Spec

- Homologation ECE R19 F3
- A severe heat run, the vibration test, the anti-corrosion examination, and the heat cycle examination of original PIAA are all clear.
- The brightness of a similar halogen is achieved by using two bulbs of three-watt high luminance LED.
- Popular 6000K light is shot.
- It achieves in long life ..low power consumption.. and for the LED use.
- 280 grams in weight, our equal commodity type ratios, and 40 percent is light.
- The installation is possible regardless of the model.

*The lamp photo is an image, and it is different from mass-produced goods.
